ON THE COVER

WHY LIAM CHOSE B&FC...

After being made redundant during the pandemic, Liam decided to join our Professional Cookery course and show you can bounce back and excel!

I took the opportunity of having more free time to enhance my skills and knowledge in cheffing. The facilities and experienced practitioners were a big draw and this course was perfect for what I wanted to do.

The main highlight for me has to be the opportunity to take part and subsequently be in the final of the Nestlé Toque d'Or competition, the whole experience has been fantastic.

I'm now working at Michelin Star restaurant Northcote in Langho. This job is something I could have only dreamed of a year ago. My time at B&FC has given me that extra knowledge and confidence to apply for a job of this calibre."

Liam is now a Senior Chef De Partie at an award winning restaurant in one of Blackpool's leading luxury hotels. [Check out our cookery courses on page 8](#)

FREE ENGLISH, MATHS AND DIGITAL FUNCTIONAL SKILLS FOR EMPLOYMENT

You will complete a short assessment to check your level and then be placed in a suitable class. We start at beginners and go right up to Level 2.

Functional skills provide key skills for life and employability. They will give you the skill set you need to help you gain new employment, progress within your current job or onto further education. Employers want employees who can:

- + communicate and use numbers confidently
- + problem solve
- + use technology effectively

English Functional Skills provides the basis for effective communication and understanding across reading, writing and speaking and listening.

Maths Functional Skills will help you learn how to deal with numbers and apply maths skills in work and life.

Digital Functional Skills will help you learn how to use a computer and the internet safely. You will learn to present information on Microsoft PowerPoint, format emails and letters using Microsoft Word and use Microsoft Excel to calculate data.

FROM FUNCTIONAL SKILLS TO GCSES

Once you've completed your Functional Skills qualifications you may wish to put your knowledge to the test and sit a FREE GCSE qualification.

LEARN ENGLISH WITH OUR FREE ESOL COURSES

We offer ESOL classes at all levels, so you can be sure to find one that matches your experience of the English language.

Our ESOL course will provide you with the essential language skills you need to successfully communicate in English. You will learn:

- + speaking and listening
- + reading and writing
- + grammar and punctuation

This will help you develop a better understanding of the English language and use your language skills to integrate into life in the UK, whilst also creating more opportunities for your future through learning about:

- + employability
- + computer skills
- + citizenship skills and British values

We also offer preparation courses to help you access work or study, or make visa and immigration applications:

- + Preparation for IELTS for work and study in the UK
- + Preparation for IELTS for visa and immigration
- + Preparation for the Life in the UK Test

See next available course on [page 10](#)

Before you start your course, we will need to check your eligibility to study in the UK.

CASE STUDY DANIELLE COOK

"I chose B&FC as it's local and offered the course I wanted to do. I applied for the Advanced Adult Learner Loan to fund my course. The course fits really well around my life, I currently attend College and run my own company alongside doing my studies. I am able to attend classes whilst my two children are at school and have time to work outside of College.

My tutors have really supported me through my College journey, when I joined the course I had no previous experience in photography and since starting they have really helped me build my confidence and skill level.

The highlight of College so far is definitely the people on my course, I've built strong friendships with people I wouldn't have met had I not joined B&FC.

I would love to open my own photography studio in the future and by completing this course it will set me on the right path to be able to do this!

ADVANCE YOUR CAREER WITH A B&FC APPRENTICESHIP

WORKING WITH
OVER 1,800
EMPLOYERS

Please note - you need to have a suitable position before you can start but we can help you with this.

If you're 16 or above, an apprenticeship provides the best of both worlds: the chance to work towards a nationally-recognised qualification and develop your career at the same time.

HOW DO THEY WORK?

Apprenticeships suit people wanting to get a foot on the career ladder, earning a wage for doing a real full-time job. They also suit people who have already been working for a while, since they provide formal recognition of your knowledge and skills, helping you to move up the ranks. Assessment mostly takes place in the workplace. You'll be working for 4 days a week, with 1 day a week spent doing 'off-the-job' training, such as shadowing a colleague or developing your skills at College.

A PERSONALISED PROGRAMME

The great thing about a B&FC apprenticeship is that it's personalised to you. When you start, we will allocate you a skills coach, who will visit you at least once a month to guide and support you through your programme and help you to plan for your future. We also provide specialist support for your English and maths and for any additional needs you make us aware of.

INTERMEDIATE AND ADVANCED APPRENTICESHIPS

Choose from a wide range of level 2 apprenticeships (equivalent to doing GCSEs) and level 3 advanced apprenticeships (equivalent to doing A Levels).

TRAINEESHIPS

If you're aged 16-24, we might recommend you do a traineeship first. A traineeship helps you develop the skills and experience you need to become 'work ready'. You'll do a 100 hour industry placement with a local employer and spend time developing your English, maths and employability skills.

+ All trainees get a FREE 24/7 Blackpool Transport bus pass and a £40 bursary

HIGHER AND DEGREE APPRENTICESHIPS

Higher and degree apprenticeships are a high quality alternative to the traditional degree route, combining skilled on-the-job training with higher level study. They suit young people who want to start their career straight away as well as existing employees who want to progress.

CASE STUDY ADAM MONK

FLYING HIGH WITH A HIGHER APPRENTICESHIP

Adam Monk recently completed the Level 4 Higher Apprenticeship in Project Management and is now Strategic Policy, Planning and Programme Officer for Lancashire Fire and Rescue Service.

"I worked full-time, attending College for a full day every other month. All of the content was so relevant - I particularly enjoyed learning something new and applying that to my job role. I'm now looking forward to building my career further."
